If you enter online your entry will be deleted if payment is not made by the closing date or when the capping level is reached.

Jump Heights

UKA has the following jump heights for the Performance and Steeplechase Programmes. (A dog's height is taken as a perpendicular line from the top of its withers to the ground.)

Regular Heights

JUMP HEIGHT NAME	DOG'S HEIGHT	JUMP HEIGHT	A-FRAME HEIGHT	ASCENDING SPREAD LENGTH	LONG JUMP LENGTH	TYRE HEIGHT CENTRE
250	320mm and under	250mm	1.7m	See Spread Table below	500mm (Not allowed in casual)	400mm
300	380mm and under	300mm	1.7m	See Spread Table below	600mm	450mm
400	440mm and under	400mm	1.7m	See Spread Table below	800mm	550mm
500	500mm and under	500mm	1.7m	See Spread Table below	1000mm	650mm
600	Any	600mm	1.7m	See Spread Table below	1200mm	750mm

In the Regular jump heights dogs are allowed to jump higher than their measured height.

Select Heights UKA offers competitors the choice to jump their dogs one height lower than their measured height in the Select jump heights. The Select jump height follows identical rules to the Regular jump height with the exception of the tyre and spread being replaced by a single jump in 200 Select. In the Select jump heights dogs can only jump the height they are eligible for.

JUMP HEIGHT NAME	DOG'S HEIGHT	JUMP HEIGHT	A-FRAME HEIGHT	ASCENDING SPREAD LENGTH	LONG JUMP LENGTH	TYRE HEIGHT CENTRE
200(s)	320mm and under	200mm	1.7m	Not allowed	Under 200mm	400mm

Handlers may choose to jump their dog at their measured jump height division in one Programme and at a higher jump height division or their Select jump height in the other Programme. However, they must complete all their runs in a Programme at the same height on the same day e.g. they cannot do Jumping at 500 and Agility at 600 on the same day.

If a dog changes jump height within a Programme, including changing from Select to Regular or vice versa, then all their previous results will still stand.

A dog cannot jump lower than their measured Regular or Select height in the Performance and Steeplechase Programmes. This includes NFC runs.

A handler may also choose to jump their dog at their eligible height or higher in any relay class, special class, or fun class. This is regardless of what height division they have been competing at in the Performance Programme or Steeplechase Programme.

Why have UKA introduced the Select height?

1. We want UKA to be inclusive to all dogs and all handler opinions on jump heights, whilst still being able to run events efficiently and be financially viable.

2. There are many dogs whose handlers would like their dogs to jump lower than their current Regular height but still have the challenge of normal courses and to be able to work toward progression. This could be due to breed, age (young & old), size (big & small) or being measured just above the jump height cut off.
3. With variation between organisations methods to measure dogs, this allows those that are in different jump heights between the organisations to keep their dogs jumping the same height regardless of where they compete.
4. On the flip side there are many handlers who believe the current 5 Regular heights we offer are great for their dogs and do not want to jump lower and they will not have to take on any of these options if they do not wish to.

What is the difference between Regular and Select?

Very simply if you choose to run in Select then you will run in the appropriate level for your dog but following the rules of the height below you. I.E. the jump height will be lower (including tyre, wall and spread) and the long jump and spread distance will be reduced. All other equipment remains the same.

Can you clarify which jump height I am eligible for?

Dogs Measured Height	Regular height	Select height
600	600	500(s)
500	500	400(s)
400	400	300(s)
300	300	250(s)
250	250	200(s)

Will Select and Regular dogs run at the same time?

Yes, all dogs jumping the same height, be it Regular or Select, will run at the same time. The computer scoring system will enter the dog into the correct results. E.G. when the jumps are set at 500 height all Regular 500 dogs and Select 500 dogs will run. (This will be very much like a Graded KC class where all dogs run throughout the time the class is open yet their results appear on the appropriate result sheets.)

Will Select have progression points?

Yes, these will be exactly the same and follow the same rules as Regular heights

Will Select dogs compete against dogs in their Regular jump height?

No, Regular and Select will be two different classes with separate results and separate progression points.

How often can I swap between the Regular and Select jump heights with the same dog?

You must jump the same jump height on one day in each program, however you can swap each day if you so wish to any height you are eligible for. EG, A 400 dog on a Saturday could jump 400 in Performance and 300 Select in Steeplechase then on Sunday Jump 400 in both programs

Will progression points carry across if I swap between Select and Regular?

Yes, with the UKA points system, it is as much about beating the course as other competitors. As you are gaining points on identical courses, with the only difference being the jump height, points gained will be treated the same regardless of if achieved in Regular or Select. Who is to say or know whether the Regular or Select height is more competitive?

For example, if you win to Champion level in Regular 600 height, you will be able to compete in Champion level in 500 Select. If you win 12 points in Beginners Steeplechase at your first show in Select and then 12 points in your Regular jump height at your 2nd show in Beginners Steeplechase, these 24 points will move you to Novice.

Why is there no Spread in 200 Select?

The 1st pole of a Spread jump is also unable to go low enough to create the required 10cm gap between the poles.

In 200 Select the judge will replace the Spread with a single jump.

Will there be a Wall in 200 Select?

Yes. UKA's current equipment suppliers both provide a Wall that will comply with a Micro height. If an equipment supplier is used at a show where this is not possible a single jump will be used to replace the wall.

Will Casual & Nursery remain?

Yes. Nursery will stay in exactly the same format it always has, offering 500, 400, 300, 250 and 200 jump heights

Casual will be changing slightly. There will now be 2 jump heights, 300 & 200.

These classes will no longer have placements but will have clear round rosettes. Dogs can jump either height.

In summary, regardless of your dog's height, at UKA you can find appropriate classes at any of our jump heights.

From the A47: Turn off the A47 at Necton. Proceed down Tuns Road until you see a right turn for North Pickenham Road. Drive down North Pickenham Road (being aware it becomes single track). Scants Corner Farm will be on your right, you will see the indoor school (big green building) from the road. Turn into the drive and parking will be on your left in front of the two rings. From the A1065: For larger vehicles, or anyone who does not want to drive down single track roads proceed along the A1065 until you get to Swaffham, drive through the town centre and onto the A47. Then follow directions above.

Otherwise take a right turn off the A1065 after the Swan at Hilborough Pub. Follow this road going straight over a cross roads, then take the next right turn. At the junction turn right again and then left after the small hump bridge. This is single track for about 2 miles, coming out at a crossroads and follow Browns Lane for about a mile.
